This presentation does not constitute or form part of any offer for sale or subscription of or solicitation or invitation of any offer to buy or subscribe for any securities nor shall it or any part of it form the basis of or be relied on in connection with any contract or commitment whatsoever. This presentation does not contain all relevant information relating to Yingli Green Energy or its securities, particularly with respect to the risks and special considerations involved with an investment in the securities of the issuer, and is qualified in its entirety by reference to the detailed information appearing in Yingli Green Energy’s filings with the U.S. Securities and Exchange Commission. No reliance may be placed for any purposes whatsoever on the information contained in this presentation, or any other material discussed at the presentation, or on the completeness, accuracy or fairness thereof.

Unless otherwise indicated, the information contained in this presentation is based on or derived from publicly available information and estimates. Certain information contained in this presentation has been extracted from third party and public sources and has not been independently verified. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of any information or opinion contained herein. The information contained in this presentation should be considered in the context of the circumstances prevailing at the time and has not been, and will not be, updated to reflect material developments which may occur after the date of the presentation. Neither Yingli Green Energy nor any of its directors, officers, employees, agents, affiliates, representatives, or advisers shall be in any way responsible for the contents hereof, or shall be liable for any loss arising from use of the information contained in this presentation or otherwise arising in connection therewith.

This presentation contains forward-looking statements. These statements constitute “forward-looking” statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. Such statements are based upon management’s current expectations and current market and operating conditions, and relate to events that involve known or unknown risks, uncertainties and other factors, all of which are difficult to predict and many of which are beyond Yingli Green Energy’s control, which may cause Yingli Green Energy’s actual results, performance or achievements to differ materially from those in the forward-looking statements. Further information regarding these and other risks, uncertainties or factors is included in Yingli Green Energy’s filings with the U.S. Securities and Exchange Commission. Yingli Green Energy does not undertake any obligation to update any forward-looking statement as a result of new information, future events or otherwise, except as required under applicable law.
Who is Yingli?
Yingli Solar is a Leader in the Solar Industry

- We are proud of our quality products, which are sold under the “Yingli Solar” brand
- We have more than 11000 employees and more than 10 branch offices worldwide
- We attribute our success to the completeness of our supply chain from polysilicon to modules
- We respect our society and our environment, which is proven with our SA 8000 and ISO certifications
- 2011 shipment guidance of 1.7 to 1.75 GW
- We celebrate our four year anniversary of our IPO (“YGE”) on June 8th, 2011
- We became the first Chinese and the first renewable energy company to sponsor the FIFA World Cup™ in 2010 and will be once again sponsor the 2014 FIFA World Cup Brazil™
- We became an “Official Premium Partner” to FC Bayern Munich in early 2011
Our mission is …

To provide affordable green energy for all
Milestones

**Commencement of Business**
- Founded by Mr. Liansheng Miao, Chairman and CEO
- Commenced module production with capacity of 3MW
- Reached 6MW capacity in ingot/wafer/cell, and 50MW in module
- Obtained UL, IEC and TÜV certificates
- Started sales in Germany

**Rapid Development**
- Reached 600MW capacity in ingot/wafer/cell/module respectively in July
- Reached 95MW capacity in ingot/wafer/cell, and 100MW in module
- Completed IPO in June
- Reached 200MW capacity in ingot/wafer/cell/module in July
- Received net proceeds of US$150 million from convertible notes offering in December

**Emerging as an Industry Leader**
- Foundation stone laid for the State Key Laboratory of Photovoltaic Technology at Yingli’s manufacturing base in Baoding in January
- Became an Official Sponsor of the 2010 FIFA World Cup™
- 400 MW capacity expansion projects started initial production in early July
- Reached 200MW capacity in ingot/wafer/cell/module respectively in September
- Received net proceeds of US$227.4 million from follow-on offering of 18,390,000 ADSs
- Became the first China-based company to join PV CYCLE
- Successfully commenced trial production and reached certain key technology and operating milestones at Fine Silicon Company Limited
- Accumulative output of solar modules under the “Yingli Solar” brand reached 1 GW since commercial production in 2002
- Received Social Accountability System SA 8000 certification in December
- Became an Official Premium Partner of FC Bayern München
- Target to deliver 1,700-1,750 MW PV modules in 2011
- Yingli Green Energy announced the sponsorship of the 2014 FIFA World Cup Brazil™ on June 8th, 2011
What do we do?
Worldwide Presence

- Represents our branches and subsidiaries worldwide
- Represents countries to which we have sold
More than 2 GW of Yingli Modules installed worldwide

Moura PV Plant
- Nameplate: 46 MW
- COD: December 2008
- Location: Moura, Portugal
- Developer: Acciona Energia
- Owner: Acciona Energia

Badajoz PV Plant
- Nameplate: 11.5 MW
- COD: June 2008
- Location: Badajoz, Spain
- EPC: Fotowatio

Rutgers University
- Nameplate: 1.4 MW
- COD: June 2009
- Location: Livingston, NJ
- EPC: Sundurance
- Owner: Rutgers University

Poggiorsini Power Plant
- Nameplate: 3.0 MW
- COD: December 2009
- Location: Poggiorsini (Bari), Italy
- Owner: ACEA RSE S.P.A.

Onnuri PV Plant
- Nameplate: 1.8 MW
- COD: May 2008
- Location: South Jeolla, South Korea
- Installer: Kepid

Kohl's
- Nameplate: 600 kW
- COD: 2008
- Location: California, USA
- EPC: SunEdison
- Owner: SunEdison

Hongqiao Train Station
- Nameplate: 3.2 MW
- COD: 2010
- Location: Shanghai, China
- Installer: Yingli Solar

Hockenheimring
- Nameplate: 848.88 kW
- COD: 2010
- Location: Hockenheim, Germany
European Markets

Achievements

- Signed a three-year sales contract to supply 220 MW of PV modules to S.A.G. Solarstrom AG
- Signed a 200 MW+ three-year framework agreement with Gehrlicher Solar AG
- Signed a 130 MW sales agreement with IBC SOLAR AG for 2010 shipment
- Signed a 51 MW sales agreement with Payom Solar AG for 2010 shipment
- Expanded Italian distribution channels by supplying modules to Tecno Spot
- Became the first China-based company to join PV CYCLE

European Customer Highlights

Sales in Europe

- Our branches and subsidiaries
- Countries to which we have sold

Overview

- Well-recognized as: Long & successful operating history, proven track record, constructive marketing strategy and strong commitment to CSR
- Our high-efficiency Yingli Solar Panda Modules perfectly suit the European market transition from ground mounted toward roof-top segment
- Expansion of recognition of Yingli brand through 2010 FIFA World Cup and Bayern Munich sponsorships
American Markets

**Project Highlights**

Signed a 15MW supply agreement with Recurrent Energy and Swinerton Builders for multiple Kaiser Permanente sites in California

Completed 10MW distributed generation programs with a leading East Coast U.S. utility

Signed an agreement to become the official energy partner for the New York Jets Football Team, with a 700kW system installed on the Jets facility

**U.S. Customer Highlights**

![RECURRENT ENERGY](image2)

![BORREGO SOLAR](image3)

![SolarCity](image4)

![DC Power Systems](image5)

**Sales in the US, Canada and Caribbean**

**Overview**

- Yingli is one of the fastest growing module suppliers in North America, 10%+ market share in 2010
- Diverse team of commercial and technical experts with nationwide support for partners and customers from East and West Coast offices
- Diversified across all segments: 40% utility, 40% commercial, 20% distribution
- Sold in 20+ states
- Yingli has become an increasingly trusted supplier to major developers and distributors in the US.
Strong Footprint in China

**Project Highlights**

- **10MW on-grid solar plant in Dunhuang, Gansu**
- **10 MW on-grid project located at Wuzhong City, Ningxia Hui Autonomous Region**
- **1.3MW grid-connected roof-top project, Yiwu, Zhejiang Province**
- **Projects in Aba County, Sichuan Province in 2002**
- **Solar products for home use in Tibet**

**Increasing Sales in China**

*Most of 2011 shipments to China are scheduled to be delivered in 2H*

**Sales in China**

- **Overview**
  - **Golden Sun Program Announced By Ministry of Finance:**
    - 272 MW projects expected to be executed in 2011
    - Incentives for ~300 MW BIPV projects launched in February 2011
    - At least 1GW of installations per year after 2012
  - Government is considering 10 GW and 50 GW of accumulated installation targets by 2015 and 2020, respectively
How do we stand out?
Technological and Quality Excellence

Certificates obtained

- IEC
- TÜV Rheinland
- ISO
- Underwriters Laboratories

Strategic cooperation with TÜV

- “Yingli Solar” modules have attained the “Power Controlled” certification from TÜV Rheinland Group
- Formed a strategic partnership covering a range of quality control initiatives at Yingli

The first State Key Laboratory of PV Technology

- Recognition as the technology leader among all Chinese PV players
- Driving the development of world-class PV technology in China
- Priority rights to commercialize technologies developed in the Laboratory at Yingli’s production lines
- Essential to Yingli’s position as a global leader in the solar industry and key to the quality and cost structure of our products
Focus on R&D throughout the value chain

We are Committed to our Communities

We have received certifications and joined organizations to ensure and demonstrate our corporate social responsibility

- SA 8000 Social Accountability: Based on the UN Universal Declaration of Human Rights, Convention on the Rights of the Child and various International Labor Organization conventions
- ISO14001 Environment Management System Certified
- ISO18001 Occupational Health and Safety system Certified
- Conferred a “National Environmentally Friendly Enterprise” by The Ministry of Environmental Protection. Yingli is the only company in the solar industry to carry this title
- First Chinese member of PV CYCLE
FC Bayern Munich is not only one of the most successful clubs in the world, but it is also one of the most popular clubs in China.

A historical moment in FC Bayern München: Yingli will be the first solar company to have ever become an „Official Premium Partner“ of the club.

As Germany is one of Yingli’s key markets, the partnership will get Yingli closer to the hearts of long-term partners and friends in Germany.

With the sponsorship, Yingli also wishes to be even closer to its end customers and be closer to fulfilling its mission of “providing affordable green energy for everyone”.

Yingli will work with FC Bayern by providing expertise in the renewable energy towards the common goal of creating a more sustainable future.
2010 FIFA World Cup™ Sponsorship

Yingli Solar was the first Chinese and the first renewable energy company to ever sponsor the FIFA World Cup™

FIFA and Yingli Green Energy had joined forces for the first time at the 2010 FIFA World Cup™ in South Africa. Both companies have striven to share ideas on how to combine the love for football and the environment to create a better and more sustainable future.
Football for Hope – Contribution with Solar Expertise and Products

- Yingli Green Energy is not only a sponsor to the FIFA World Cup™, but also a provider of its solar expertise and products to power “20 Centres for 2010”, the official campaign of the 2010 FIFA World Cup™

- This campaign is part of the “Football for Hope” movement, which is using the power of the game for positive social change

- By coupling the campaign with our solar products and expertise in the renewable energy space, we believe that we are truly joining forces with FIFA in offering a platform for better social development

- We call this “Football for Hope. Energy for Hope.”
Yingli Announces Sponsorship of the 2014 FIFA World Cup Brazil™

- Yingli Green Energy announced the sponsorship of the 2014 FIFA World Cup Brazil™ on June 8th, 2011

- During a joint press conference, Mr. Liansheng Miao, Chairman and Chief Executive Officer of Yingli Green Energy, and Mr. Thierry Weil, Marketing Director of FIFA, welcomed journalists from around the globe
Yingli Green Energy has been named one of the best low-carbon companies China in 2010 by The Economic Observer, one of the leading economic and management newspapers in China, which aims to select the best companies in shaping the "low-carbon" era and setting up models for others.

Yingli Green Energy has received the Best Sports Marketing Award for 2010 FIFA World Cup™ by Netease. During the world Cup, Yingli integrated the enterprise and sportsmanship with a high degree, which is widely appreciated.

Yingli Green Energy has been ranked among “2010 Top 10 global green economy companies” by IGEA, which purpose is to promote the green economy conception, and it is highly appraised as the Environmentally-friendly development in the world.

Yingli Green Energy has received a Euromoney and Ernst & Young Global Renewable Energy Award, “Equity Deal of the Year – Technology” award in recognition of the Company’s successful June 2009 equity follow-on offering of 18,390,000 ADSs which helped to raise investors’ confidence in the renewable energy sector.

Yingli Green Energy has been ranked among “2009 Top 10 Most Competitive Overseas Listed Companies of China” by the Institute of industrial Economics, a branch of The Chinese Academy of Social Sciences and China Business, one of the leading economic and management newspapers in China.
